ENTERTAINMENTS.

For many days Prince Albert citizens have awaited with interest the coming to our town of Miss Agnes Knox, who was billed to give two of her popular entertainments here, in aid of the new hospital recently erected at Medicine Hat, Assa. Miss Knox arrived on Saturday in Supt. Niblicks private car. She was accompanied by Mrs. Coons and Miss Sisson of Medicine Hat and Messrs. Beaufort and Galletley of Calgary and Camrose. Miss Knox's initial performance took place at St. Albans Episcopal church on Monday evening last before one of the largest audiences ever seen in this town. And to say that every one present was highly delighted would be a very mild way of expressing the approbation with which she was received; each of her numbers were received and judiciously selected programme was a rare gem in itself and was justly appreciated by the audience, whose hearty sympathy she won at the beginning. Her sweet and perfectly controlled voice, winsome face and queenly figure, with the wonderful power of realism displayed in the interpretations she essayed succeeded in keeping her audience wrapped in admiring attention throughout. What more need be said than that all present were unanimous in the view that Miss Knox is indeed "Canada's Charming Girl." The programme was carried out successfully. Miss Sisson won much praise by her finished performance on the piano, and Mrs. Coons of Medicine Hat, with Messrs. Galletley, Beaufort and Pavier shared the honors extended to the vocalists of the evening.

On Wednesday night a still larger audience attended to do honor to Miss Knox, and to be gratified by her highly artistic performance. If it were possible Miss Knox surpassed her performance of Monday, while Mrs. Coons added to her well-earned laurels by her magnificent rendering of Lullaby, which was loudly cheered. Both performances will be memorable to the Prince Albert people, who will be only too glad to again welcome Miss Knox and her companions, at we hope, no very distant period.

Mr. T. J. Agnew, to whose indefatigable efforts a large part of the successful issue of the entertainments are due, also deserves mention.

The Tribune Publishing Co., Winnipeg presents a magnificent opportunity to obtain handsome and valuable premiums. In order to introduce THE WEEKLY TRIBUNE into thousands of new homes during the coming year, the publishers are offering very strong inducements to obtain subscribers. In addition to giving valuable premiums to those getting up clubs, a great word contest has been inaugurated thus affording every subscriber an opportunity to win a costly prize. To the person sending THE TRIBUNE, on or before January 15 next, the largest list of English words constructed from the letters contained in the three words, "THE WINNIPEG TRIBUNE" they will give a magnificent Cabinet Organ, valued at \$245; to the person sending the second largest list they will give a splendid Sewing Machine worth \$60; and to the person sending the third largest list they will give a complete set of Dickens' Works in 15 volumes. All competitors must forward, together with their list of words, \$1 for THE WEEKLY TRIBUNE, which will be sent for that sum from now on any time hereafter to the list of January, 1891. All those desiring to do so may themselves take part in the competition and have the paper sent to distant friends or correspondents. The word contest closes on January 15, 1891. THE WEEKLY TRIBUNE should be in every home in the Northwest, and is just the paper to send away to friends to keep them posted on the affairs and the progress of this country. Full rules governing the word contest and a complete list of club premiums are published in THE WEEKLY TRIBUNE. Send for sample copies. Address THE TRIBUNE PUBLISHING CO., Winnipeg.

THE PROPOSED PACIFIC CABLE.

The Globe, in a leader of 28th ult, is somewhat in error as to Mr. Sandford Fleming, C. M. G., being the originator of the above enterprise. Several years prior to 1879, Mr. Gibbons, superintendent of the Dominion Government Tele-

graph service, advocated a trans-Pacific cable connection with Japan and China via British Columbia, and his semi-official letter of July 9th, 1879, was of prior date to his official report of the 13th, in response to Mr. Fleming's request of the 11th.

Priority of conception is, however, of small moment other than as a matter of professional "kudos," but when an engineer and electrician of Mr. Gibbons's known experience publishes his views with an explanatory map (as appeared in the Dominion Illustrated paper of 6th April 1889), Canadians should be cautious in committing the country to an enterprise which may be "bettered" by our American cousins. The plan of Mr. Gibbons's article is that Japan and China with their 400,000,000 of inhabitants and their vastly larger trade resources can be electrically connected with Canada at less than one half the cost than the 4,000,000 of Australians. Also that Australia can be connected by that alone possible route by less length of cable and cost than by the Sandwich and Fiji islands route advocated by Mr. Fleming. Several hundred copies of Mr. Gibbons's article and map were forwarded to England and the Australian colonies, where they were republished and we have yet to see the accuracy of his argument and figures challenged.

We, therefore, invite our readers to study a subject of such vital importance to Canada's commercial interests and not to be led away by mere sentiment of the erroneous idea that a trans-Pacific cable can be better protected during war if submerged over the longer and more costly route.

A PROUD DECLARATION

The Kingston Whig says:—Judge McGuire was a guest at a banquet in Prince Albert, N.W.T., some time ago and in his address he pointed out that, taking each province from the Atlantic to the Pacific, the proportion of crime to population is lowest in the Northwest Territories. Taking the average for ten years, the number of offences of all kinds for the Dominion has been one to every 141 of the population. But in the Territories the number was only one for every 1,738! In the district of Saskatchewan with its immense area of over 100,000 square miles, during the four years of which he had personal knowledge, there had not been brought before him one single serious offence—not one case of violence to the person. This was a creditable thing—a thing of which they might well feel proud.

For over fifty years Mrs. Winslow's soothing syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of rest by a sick child crying with pain of cutting teeth send at once and get a bottle of "Mrs. Winslow's" soothing for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation. Is pleasant to the taste. The prescription of one of the oldest and best of female physicians and nurses in the United States, and is sold at 25c. per bottle by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's" soothing syrup."

C. MAIR. HAS ARRIVED!

Farming in Dakota.

Webster's Recent Investigations - Describable State of Affairs - Wheat Yield Two and a Half Bushels to the Acre.

(From the Empire.)

Draws, Oct. 29.—Mr. W. A. Webster, Kingston, travelling agent for the Department of Agriculture, is in town consulting with Hon. John Carling as to the best means for getting into Manitoba those Canadian families settled in Dakota who are desirous of leaving that State. Mr. Webster says that every day brings him confirmatory evidence of the fact which is now taking place in Dakota. In Brown and McPherson counties 400 families will, it is estimated, leave this winter and the North West next spring. Mr. Lounsbury, who was in the farms of Brown county to look for the result of his trip. He refers to the contents of a letter, said contents being Manitoba vegetables and cereals. The letter is as follows:

Westport, Brown County,

South Dakota, September 27.

I arrived here and found my family well and also found lots of my friends to meet me. My trunk was "unanimously carried" from the depot over to the post office, and there it was opened, and by the time they all got through looking at it, the biggest part of the contents were in other hands. They all declared they were going to take home samples. It was a big advertisement for Manitoba vegetables. They could not help believing in our eyes. I have had friends every day since I came back, enquiring about that country. I have threshed, and my wheat averaged two and a half bushels to the acre and oats and barley one peck to the acre, and that is about the average of this county. McPherson county is just as good. Mr. Henry Hoover wants to know you what you can give him to look for from Aberdeen to Winnipeg. He has five horses, two cows and calves and his family outfit. He is a man who wants to buy and pay cash. He says there will be several families going out this fall, and it is hard to tell how many next spring. There are several families who are going to stay there in two or three days, and they are intending to drive through. When you give Mr. Hoover the rates on a direct freight to him at Leola, McPherson county, for he is in a hurry to get away, and he would get it sooner than if you were to send it to me.

From your friend,

(signed) George Lounsbury.

OTHERS WHO WANT TO GET OUT.

From another letter which Mr Webster showed the Empire the following is culled: J. J. Williams, Deola, McPherson county, long the writer. He says:

There are five families of Canadians here who want to get out of this, as we have had two crops almost a complete failure, and cannot stay any longer. Could you furnish us a car, so that we could put our furniture in and what little stock we have? One car would hold it all. Could our families go in the same car, or would we have to go on the express? We have got but very little money, as we got but very little over 100 bushels of wheat did not go to seed.

Peter Lafontaine, Delhi, South Dakota writes that last year he had 145 acres in wheat, and raised 225 bushels. This year he has 225 acres in crop, and thinks he will just get his seed. He asked Mr Webster to select a location for him and he will gladly leave.

HE MADE A MISTAKE.

A Canadian residing at Leola, South Dakota, writes:

I farmed last year 250 acres, this year 200, and I am worse than when I began. I have long felt that I made a mistake in coming here, but how am I to get away? I do not know, for I am under chattel mortgage. I have a wife, three sons, 22, 21 and 16 years—and a daughter 18 years old.

He wants Mr Webster to advise him as to how he can get to Manitoba, but regrets that his name be not published as he does not desire his friends in Ontario to know his real condition.

As may be seen by advertisement, Mr. C. Woodman has purchased the business of the Woodbine Saloon, Mr. A. H. Woodman retiring, finding confinement to the house not agreeing with his health. He will take charge of the Caledonia Stables.

MESSAGE

His Honor the Lieutenant-Governor Transmits to the Legislative Assembly of the Territories the following Message.

In thanking the Legislative Assembly for its address in reply to the speech delivered at the opening of the present session, His Honor cannot refrain from making a statement which appears to be called for by certain portions of the address.

It will be remembered that a serious difference of opinion arose, during the latter part of the session of 1889 respecting the interpretation of the Act constituting the Advisory Council and determining its powers in matters of finance. While certain honorable members of the House contended, on the one hand, the words "matters of finance" contained in the Act included not only the Territorial Revenues, but also the appropriation made by the Parliament of Canada for the expenses of Government in the Territories, His Honor on the other hand, contended that those words could refer only to the Territorial Revenues, or, in other words, that the Act gave the Advisory Council and the Lieutenant-Governor absolute control over the Territorial Revenues, but the moneys voted by the Parliament of Canada being at the disposal of His Excellency the Governor, could not be at the disposal of, or under the control of, the Advisory Council.

The interpretation placed by His Honor upon the Act has since been, as the House is aware, upheld by the Honorable the Minister of Justice in his report of 6th January, 1890, which was adopted by His Excellency the Governor in Council, and of which the following is an extract:

"The appropriation made by the Parliament of Canada, being placed at the disposal of your Excellency, may be administered in various ways without being placed under the control of the Lieutenant-Governor, but the local revenues of the Territories are necessarily under his control, by virtue of the statutory provision, which vests in his office, and invests him with the administration of the Government."

Being clearly of opinion, therefore, that the duty is imposed on the Lieutenant-Governor of appointing an Advisory Council on matters of finance, and that these matters of finance, on which he is to be so advised, include the administration of the Territorial Revenues, the undersigned, etc., etc."

Whatever view may have been entertained prior to this expression of opinion, on the part of the Honorable Ministers, as to the true construction of the Act in question, His Honor is now bound to adopt the interpretation of it, by reason of his being the legal adviser of His Excellency the Governor in Council, under whose instructions His Honor administers the Government of the Territories.

Upon the resignation of the members of the first Advisory Council, the honorable member for Medicine Hat, whom His Honor had invited to form a Council, and who, His Honor understood, possessed the confidence of the House, informed His Honor that he could not accept office or form a council, unless he and his colleagues were invested with the control of the expenditure of both the Federal and Territorial funds and that no Advisory Council would possess the confidence of the House, unless such control were conceded.

His Honor was led to believe that the honorable member, in making these statements, was expressing the views of a majority of the House and being unable to concede to the Council the control of the expenditure of the Federal funds His Honor was necessarily led to the conclusion that under the existing law it would be impossible for him to select a Council possessing the confidence of the House.

As the Act referred to rendered it imperative and, as the carrying out of the provisions of certain of the Ordinances required that His Honor should have an Advisory Council he was therefore obliged to select a Council from amongst those willing to comply with the law, irrespective of the fact whether they possessed the confidence of the House or no.

His Honor has always been desirous that the Advisory Council should possess the confidence of the Assembly, but he has not been aware that the views of the majority of the House, as expressed by the hon. member for Medicine Hat on the occasion mentioned, respecting the claim to control the expenditure of the

Federal funds, have undergone any change.

With respect to that portion of the Address, which relates to school moneys, the House must be aware that His Excellency the Governor in Council has, for many years past, assumed without question the direct control of the expenditure of the moneys annually voted by the Parliament of Canada for school purposes in the Territories, and which form part of the fund, the control of the expenditure of which is claimed by a majority of the House. By order in council of the 12th March, 1886, the moneys were directed to be expended in accordance with the School Ordinance of 1885, and by order in council of the 18th July, 1890, they were directed to be expended in accordance with the Revised School Ordinance.

The circular respecting the reduction in the school grant to which exception has been taken, was issued under His Honor's direction after the appropriation for the present year had been voted by the Parliament of Canada.

It was found that, owing to an unexpected increase in the number of school moneys formed and applied for, the amount voted might prove insufficient to pay each district the full amount of the grant provided for by the Ordinance. His Honor thought it prudent that the trustees of each district should be advised at the earliest possible date, of the position of affairs, in order that they might make provision for any possible deficiency in the grant under the Ordinance, but which the House is now glad to have reason to believe will not occur.

By kind permission, the ball was held in the Council Chambers, which was tastefully decorated with flags, the P. A. C. C. flag occupying the place of honor at the top, while on the two sides of the room were hung the presentation bats, together with the stumps, balls and medals.

Dancing commenced at 9 p.m. and was kept up until supper was announced at 11:30, when the ladies were taken upstairs to have some refreshments, while the unfortunate gentlemen who were not able to secure a lady disported themselves on the floor until the ladies reappeared, when the dancing commenced again with renewed vigor, and was continued until 3 o'clock on Saturday morning. Every one present was highly pleased with the entertainment provided and the Cricket Club must be congratulated on their success.

Mr. Staufferth kindly undertook the management of the supper, and he deserves the greatest praise for the able manner in which he catered for the assembly.
